Re: Burglar Alarm Registration for Montgomery County

Fr: Protect America, Inc.

Montgomery County will not respond to any unregistered alarm activations. In addition, Montgomery County does not send warning notification letters for first time offenses, but will issue a \$100 fine to the alarm user.

There is a non-refundable \$30.00 registration fee that must be paid with the initial registration. Registrations must be renewed on a biennial (2 year) basis at a cost of \$10.00. Failure to renew when required will result in no “free” false alarms and the imposition of an additional \$100 charge for every false alarm.

I, the alarm user, understand that I have paid upfront for the Montgomery County Alarm Registration.

I, the alarm user, understand that this registration renews biennially and I shall renew my registration when the Montgomery County False Alarm Reduction Section (FARS) notifies me. I understand that if I do not renew my registration, Montgomery County will charge me for every false alarm.

I, the alarm user, understand that a Montgomery County Residential or Non-Residential Burglary Alarm Registration form will be sent to me with my alarm system. I understand that I have to complete the application and mail the form back to Protect America, Inc. in the business reply envelope provided with my registration form.

I, the alarm user, understand that my system will be on non-dispatch/log-only until Protect America, Inc. receives my alarm registration form back. This means in the event of an alarm, the monitoring company will not request police dispatch.
